PSPEC

Process Name: Transfer Pulsa

Input:

- User
- Destination phone number (input by user)
- Amount to transfer (input by user)

Output:

- Successful or failed transfer message

Steps:

1. Get the selected option from the user (1. Transfer Pulsa)
2. Request the destination phone number and amount to transfer
3. Validate the destination phone number and check the user
4. If balance is sufficient and destination is valid:
 - Deduct the specified amount from the user
 - Credit the amount to the destination account
 - Return a success message to the user
5. If validation fails:
 - Return a failure message to the user
